

**REMARKS**

Applicants submit that the amendments to the specification directed herein are made to insert reference to SEQ ID Nos corresponding to those assigned to the sequences in the accompanying sequence listing. The paragraph at page 1, lines 2 through 6, regarding related applications, has been amended to correct a typographical error. The paragraph now correctly recites the foreign priority document as United Kingdom Patent Application No. UK 0301566.6. Support for the amendment is found on the Application Data Sheet as filed and on the Filing Receipt. The amendments add no new matter.

If the Examiner believes that a telephone conversation with Applicants' attorney would expedite prosecution of this application, the Examiner is cordially invited to call the undersigned attorney of record.

Respectfully submitted,
